

### Amendments to the Claims

Claim 1 (Currently amended): A method of printing time sensitive documents, the method of printing comprising:

receiving an intended delivery location with each of a plurality of documents;

determining a time to print;

determining a time required to deliver each document to the intended delivery location;

determining a desired date of receipt;

correlating the time to print, time required to deliver and desired date of receipt to determine a

time to begin printing documents;

obtaining shipping data for each document;

printing a shipping label for each document ~~in-line~~ with each document; and

associating each shipping label physically with each document without the need for subsequent correlation and merging of the document and shipping label.

Claim 2 (Cancelled)

Claim 3 (Previously presented): The method of claim 1 further comprising stapling the shipping label to the document.

Claim 4 (Original): The method of claim 1 further comprising shipping each document.

Claims 5-11 (Cancelled)

Claim 12 (New):      A method of printing documents, the method of printing comprising:

obtaining customer data;

obtaining shipping data;

creating variable data forms;

merging the customer data and shipping data into the variable data forms; and

printing a document and a shipping label wherein both the document and the shipping label are

based on the variable data form and both are printed together without the need for

subsequent correlation and merging.
